Catalog Number	Pump Amp Draw @ 10 Feet	Charger Output	Approx. Wt. Lbs.
DB10018T	10	0.8A	12 lbs.
DB20018T	18	8A	18 lbs.

*Based on use with battery #FP12V27DCC (sold separately).

DB SERIES

SPECIFICATIONS

- Motor – 12 Vdc
- Charger – 0.8A (DB100)
8A (DB200)
- Switch – Tethered float
- Discharge – 1-1/4" NPT

FEATURES

Easy Installation – Includes pump mounting tee, check valve, and all fittings needed for 1-1/4" and 1-1/2" PVC piping. Battery case included.

DB10018T

Emergency Back-up – Fully automatic sump pump system will operate in the event of primary pump failure or power outage

Capacity – Removes more than 10,000 gallons of water per power outage; capable of draining the average sump pit over 1,000 times on a single charge

Charger – State-of-the-art computer controlled UL/CUL approved; provides maximum security

DB20018T

Sump Pump System – Heavy-duty, professional, 12 Volt; best value in flood insurance

High Capacity – 3,000 gallons per hour pump provides performance comparable to most 1/3 HP primary pumps; ideal for highly active sumps

Quick Installation – Simple push-on connectors

Charging System – Smart and powerful, UL/CUL approved; efficiently restores a safe charge to your battery

For Best Results – Use battery FP12V27DCC (sold separately). Battery acid number FP7QTDCC
